

ACCOMMODATION

The Bed Culture at Lausanne Palace & Spa

The Lausanne Palace & Spa has managed to unite the characteristics of a luxury hotel with the advantages of urban life in its philosophy. In other words, maintaining the warm and opulent atmospheres of the past while matching it with today's technologies and conveniences.

Guests can choose from one of the 140' rooms, among which 30 are suites overlooking the Lake Léman and the Alps or the Cathedral. Up-scale furniture and fittings, which are a successful combination of style and design, are implemented until the smallest detail to exceed the expectations of every guest.

Cultivating sleep

More than a 5-star hotel, the Lausanne Palace & Spa has developed its own "Bed Culture": The prestigious new bed linen and natural anti-allergenic fabrics like silk, pure virgin wool and cashmere are ready to envelop guests. The optimal ergonomics of the mattress developed by the renowned specialist Victor Moritz, is crowned by a snug over-mattress that leaves the impression of sleeping in cotton wool, while ensuring perfect support for the back. Guests continuously benefit from an unparalleled rest, cuddled in a large individual Nordic duvet.

In terms of technology, all rooms are equipped with the LCD flat-screens, and all guests can benefit from a satellite network with a large selection of Video On Demand. The Lausanne Palace & Spa offers complimentary Wi-Fi in all rooms and public spaces.
